

Partner with Canberra Data Week

A citywide festival of data & AI for public good.

Canberra Data Week brings together government, industry, academia and the wider community to celebrate how data and AI can be used for public good. Microsoft hosts the anchor event in the nation's capital, with satellite events right across the city — and we're inviting organisations to help shape the week.

WHY PARTNER

Visibility

Put your brand at the centre of Canberra's data & AI conversation.

Connection

Reach public-sector decision-makers, partners and the community.

Talent & ideas

Engage students, researchers and future data professionals.

Public good

Show how your work improves services, policy and lives.

WAYS TO CONTRIBUTE

Sponsor

Financial or in-kind support to power the week.

Host an event

Run a workshop, panel or showcase of your own.

Offer a venue

Open your space for a satellite event.

Share data

Contribute open or anonymised datasets.

Speak

Lend expertise as a speaker or panellist.

Amplify

Promote CDW across your networks.

FLAGSHIP · CHIEF MINISTER FOR A DAY

Step into the ACT Chief Minister's seat and make real policy calls in an AI simulation — SimCity meets real policy, live at the Microsoft anchor event.

INVEST IN THE NEXT GENERATION

Youth data challenge

Students turn a real ACT dataset into an insight, mentored by industry.

Careers & pathways

Connect young people with real data & AI career journeys.

Access & equity

Fund places so background never decides who takes part.

Applications to sponsor, host and partner are open now.
